Modern medicine thinks, the skin contains the sebaceous glands, sweat glands and hair follicles, rich in blood vessels and peripheral nerves, such as massage force factors acting on the body surface of physical stimulation, in effect the cause of biophysical and biochemical changes, deep by the skin directly or indirectly to the muscles and fascia, nerves, blood vessels and lymphatic tissue penetration, through the regulation of neural and humoral, produce a series of pathophysiological changes, which makes the body function recovery and improve.

Fitness/relaxation massage can make you better function mechanism.

Thanks Regards

William Fuji MD PhD
